Chief Engineer, Zone, Vijayawada has proposed for erection of 220 kV DC Line from 220 KV Sub-Station Gunadala to 220 kV Sub-Station Nunna in the same corridor of existing 220kV Gunadala – Nunna SC line, in order to have proper, reliable source to 220kV Gunadala SS as it becomes difficult to feed the loads of 220kV SS Gunadala during the outage of one of the two single circuit feeders (one from Nunna and another from NTTPS) strung with Deer ACSR Conductor, feeding Gunadala SS and also to meet the increasing load demand of the city.

In a view to overcome the difficulty to feed the loads of 220kV SS Gunadala during the outage of one of the two single circuit feeders feeding Gunadala SS and also to meet the increasing load demand of the city, it is essential to erect 220kV DC line with MOOSE ACSR on Multi Circuit towers in the same corridor by dismantling the existing 220kV Single circuit line

Chief Engineer / Construction – I formulated a scheme for erection of 220 kV DC Line from 220kV Gunadala Sub-Station to 220 kV Sub-Station Nunna in the same corridor of existing 220kV Gunadala – Nunna SC line

After careful consideration, APTRANSCO accords approval for the above scheme at a total cost of Rs.1173.00 Lakhs as per the break up given below:

<table>
<thead>
<tr>
<th>Sl. No</th>
<th>Description</th>
<th>Unit</th>
<th>Qty</th>
<th>Rate Per Unit Rs. Lakhs</th>
<th>Amount In Rs. Lakhs</th>
